Objective:

I am looking for a position as a Software Engineer in a dynamic company that values my analytical and technical skills and provides opportunities for expanding my knowledge. I am passionate about pushing my skills with software development and embedded systems forward as I build on my career. I seek a company that will help me contribute to its development while concurrently aiding my personal growth as an Engineer.

Education:

Iowa State University School of Science and Technology: Graduated

- GPA: 3.6
- Software Engineering

Work Experiences:

State Farm Insurance, Bloomington IL – Software Engineer (Corporate Headquarters)

June 2026 - Present

- Develop frontend and backend components for cloud-hosted applications supporting the Telematics Drive Safe & Save platform using REST API calls.
- Implement, version-control, and deploy software to production, contributing to the software development lifecycle and CI/CD workflows.
- Tested and shipped code and deployed to State Farm's production environment.

State Farm Insurance, Bloomington IL – IT Intern (Corporate Headquarters) Summer 2022-2025

2024-2025

- Collaborated in an Agile/Scrum environment to develop AWS-based data migration solutions with a Lead Software Engineer.
- Supported cloud data solutions involving AWS S3 and Glue.
- Created a python script in conjunction with web API's to automate data migration.

2023

- Collaborated with developers and business stakeholders to update State Farm's internal Data Dictionary.
- Created technical documentation and presentations explaining Life Modernization initiatives and data management processes.

2022

- Assigned to the F5 Networks Load Balancer team.
- Observed network troubleshooting and infrastructure implementation meetings with technical teams and business partners.
- Documented State Farm's intranet network architecture and presented key infrastructure components.

Skills:

- Java, JS, C, C#, Python, ARM Assembly
- AWS S3, Glue, Redshift
- Xilinx Vivado
- Linux
- SQL Databases
- GIT
- Embedded Systems Design
- Embedded Software Engineering

Certifications & Leadership and Community Service:

- National Honors Society
- Eagle Scout
- Order of the Arrow (Scouts BSA)
- Volunteering at Ames Animal Shelter
